

Goose neck adjustable boom with a condenser microphone. Desk stand or Monitor attachment. 1.8 metre lead to USB-C USB-A connector.

The Audio Technica ATR4750-USB gooseneck microphone is perfect for podcasting and videoconferencing. The microphone features an omnidirectional pickup pattern for full 360° coverage, and it comes with a sturdy desk stand for convenient placement. The microphone's 1.8 m cable is terminated with a USB-C connector and includes a USB-C to USB-A adaptor, allowing you to connect to the microphone input on computers, tablets, smartphones, and other devices. A monitor mount is also included to give you the option of affixing the mic to your computer monitor.
