

## SSTS Professional Microphone UHF Dual Wireless Mic Model: WE2010

### System Features

Dynamic range: 100dB

Audio response: 80Hz-18KHz( $\pm 3$ dB)

Comprehensive signal to noise ratio:  $>105$ dB

Comprehensive distortion:  $\leq 0.5\%$

Audio output: 0-800mV

Receiving channel: two channels

Power supply voltage: DC12V

Working power consumption current: 200mA

Receiver adapter: input AC110V-220V, Output DC12V1A

Sensitivity: 12dBuV (80dBS/N)

Sensitivity adjustment range: 12-32dBuV

Spurious suppression:  $\geq 75$ dB

Maximum output intensity: +10dBV

Antenna: external

Receive mode: FM (quartz lock)
